IF IT WILL HELP ALBERTA THE BULLETIN IS FOR IT

A WORLD LEADER

A WORLD LEADER
Out of thirty-five prizes offered for hard
spring wheat at Chicago, Canadian exhibitors captured twenty-one. Of the twenty
highest awards in the class, they took twelve,
including first and third. Though it fail al
by a narrow margin to again the world
championship for wheat of all kinds, which championship for whear of all kinds, which eemes to Canadian growers with fair regu-larity, Canada this maintained its position as the best spring wheat country in the world, and Peace River its position of the best spring wheat district in Canada. Western Canada has won the grand championship at Chicago often enough that Montana's victory this year may be s'4 down as more or less of a "fluke." But

The oats with which Mr. Trelle won the championship at Chicago were the heaviest ever shown at the International, weighing

weight of a measured bushel grown in that country.

That is to say, a bushel measure full of these Wembley oats would weigh more than a measure and a half of United States oats, would centain as many food units, and would be worth as much money if sold at the clevator at the same proceeper bushel, grain being sold by weight, not by measure.

While oats weighing 49 pounds to the measured bushel cannot be said to be common in Alberta, that weight is by no measure.

While oats weighing 49 pounds to the measured bushel cannot be said to be common in Alberta, that weight is by no measure.

More than the carecter weight is by no measure.

Cel. Jarvis left Toenton on Saturday to pass an ordinarie of the carecter that the exception in the central and northern parts of this province.

These figures will suggest to he Alberta farmer, and may well suggest to a large number of Clutted States farmers also, the advantage which Alberta holds in the production of oats, one of the great food of one of the common in the control of the control of the common in the control of the control

MUNICAL PROGRAMME DURING MEALS

Incoporated May 26, 1923, after years of negotiation with the city, the Northwestern Utilities Ltd., has grown until today it is one of the largest fuel suppliers in the city of Edmonton.

suppliers in the city of Edmonton.

Gas of high value and burning quality was found in the Viking fields, 18 miles from Edmonton, and the company contracted to bring the fuel to the city which they did within 116 working days. Construction was started July 6, 1923,

Today the company has made 8,398 service installations in city houses and has 120 miles of mains running through the city. The company was started as a new enterprise figur years ago and the natural gas service has proved so efficient that wore 75% of these in the districts where the gas service is available are equipped with this fuel.

available are equipped with this fuel.

About \$500,000 has been spent in Edmonton and the surrounding district for the development of this utility. Besides the miles of pipe equipment there are eight large regulating stations in Edmonton and one at the Viking field so that the flow of gas to the consumer will not be interrupted.

The installation of gas has played a prominent part in the development and progress of the eity of Edmonton and surrounding district and today the company has ever \$500 users of the field and an open flow capacity at the field of the state of the surrounding district and today the gas was supported by the surrounding district and today the company has ever \$500 users of the field and an open flow capacity at the field on the surrounding surrounding district and today the company has such as the surrounding district and to the surrounding district and the surrounding district and to the surrounding district and to the surrounding district and the surrounding district and to the surrounding district and the surrounding district and to the surrounding district and the surrounding district and

Since that time with the value of the gas for heating, cooking and power proven, the number of consumers has increased steadily to the present number of 8.035.

The Northwestern Utilities Ltd. already has experienced fast growth in business and is still growing.
